

T81-64. Sandoval Co, N. Mex. Natural swale on
ESE flank of Cerro La Jara, Baca Location
No. 1; 15-V-1981.

The only snail found here was Lymnaea
caperata; this is one of the two localities
in the state.

The sky is dark and rain beginning to
fall in advance of the storm that brought
nearly a foot of late snow.
